## News letter no 59

Update 20/05/2016 Lienz

*From Arsie in the southern Dolomites we moved to the northern Dolomites at Lienz in Austria. Lienz is in east Tirol, with two fast flowing rivers the Drau and the Isel which converge in town, and eventually end up in the Danube, several countries to the east.*

*Lienz is a busy town typical Austrian, pretty and very clean, we are 2km out of town but there are 4 different paths to walk into town.*

**Like of the day** *Toad in the hole with Lakings finest Lincolnshire sausages.*

**Top tip** *When doing long term travelling down load a list of public holidays for the country's you are visiting, we have in the past moved and gone to supermarkets which are closed, Austria has 4 public holidays in may 2 of which we don't have.*

**Sport** *All areas have different activities that they specialise in.  
Garda, is windsurfing, kite surfing and paragliding  
Dolomites, is motorcycling "pass bagging" and paragliding  
Lienz, is Kayaking and cycling.*

*There are about 40 units on this site and only 6 of us don't have kayaks the rest all seem to belong to German clubs, as I am typing this another 2 caravans have come in loaded with kayaks.*

*I have mentioned our Remoska (from Lakeland plastics) which is only 120w it is ok to use on Italian sites where you are often only given 3 or 4 amp (700 – 950 watt) our combi oven blows the trip, yes we have a gas oven but in warm weather it heats the camper up too much.*

*One of my favourites Mince and Dumplings YUMMMMMMMMY.*

*We had a little trip up the mountain from the camp site, to this little lake with this fantastic hotel in an idyllic setting.*

*As you can see the pensioners are drinking from their flask, not the posh cafe. And thats the way we like it.*

Last week end they held a “old timers rally” in our village, it seam to consist of bring along anything old with a engine, dress up in local costume and drink as much beer as you can, they were all having a wonderful time.

This VW micro bus was exactly the same one Wendys dad bought when she was a little girl.

*Now something horrible.*

*This is a May Beetle and there are lots about, they are about 40mm long and fly very slowly from tree to tree eating the leaves. Last year there were so many about, the local communities were offering 1 Euro a bucket full for people to catch them.*

*Dislike of the Night. Horses about 50m away kicking their stable door in the middle of the night.*

*Weather The last 2 weeks has been very changeable with lots of rain and very cold at night, (like a normal English summer ) thank goodness the forecast now is for a lot better weather.*

*Sent from my 5 year old lenova lap top.*
